Objective

I am looking to enter a full-time entry-level computer science career. In doing so, I aim to put what I have learned to use while further expanding my knowledge.

Skills

Languages	Software	Technologies
C, C#, C++ JavaScript, HTML5, PHP Java Visual Basic Python	Microsoft Windows 95 – 10 Linux Visual Studio 2012 – 2017 MySQL Workbench Eclipse IDE	SQL Amazon Web Services REST Microsoft Dynamics 365 Git

Education

Mansfield University of Pennsylvania
Bachelor of Science, Computer Science

Attended 2015 – 2017
Graduated in May 2017

Susquehanna University
Bachelor of Science, Computer Science

Attended 2012 – 2014
Transferred from university

Experience

Revature – Reston, Virginia

June 2017 – October 2017

Associate Software Developer (training only)

Received workplace-oriented training in various client-side and server-side technologies. Technologies included HTML5, CSS, Bootstrap, JavaScript, C#, RESTful web services, and SQL databases. Also received training in extensive customization, developing plugins, and developing custom workflows for online Microsoft Dynamics 365 instances.

Susquehanna University – Selinsgrove, Pennsylvania

September 2012 – May 2013

Information Technology Technician (work study)

Performed maintenance on campus-owned technology, most often computers and projectors. Assisted campus staff and students with computer issues, such as performing software repairs. Responded to client phone calls.
